Gemological Laboratory of international standards

Check

LABORATORY AND ASSESSMENT

Laboratory "EG-Labs" was established in the early 2000s. The company's work is based on generally accepted international Gemological standards. "EG-Labs" works with diamond exchanges around the world, evaluates diamonds, colored gemstones and jewelry for many years. Gemological examination is performed by highly qualified gemologist experts from leading universities, who have years of experience in working with precious stones.
